

OHIO UNIVERSITY
Faculty Position in Experimental Nuclear Physics

The Department of Physics and Astronomy at Ohio University invites applications for a tenure-track faculty position in Experimental Nuclear Physics that will begin in September 2008. The opening is expected to be at the Assistant Professor level. The department presently has 26 regular faculty members and approximately 65 students in its graduate program. The new faculty member will also be part of Ohio University's Institute for Nuclear and Particle Physics (INPP). The INPP has active research programs in three main areas: (1) low-energy experiments -- using the on-campus Edwards Accelerator Laboratory as well as external facilities; (2) medium-energy experiments -- with research primarily conducted at the Thomas Jefferson National Accelerator Facility; and (3) nuclear/particle theory. For this position we seek outstanding candidates whose expertise will enhance the INPP's experimental research efforts in one (or more) of the following areas: medium-energy nuclear, low-energy nuclear, nuclear astrophysics, relativistic heavy ions, fundamental symmetries, or neutrino physics. Further details on the research interests and activities of the INPP can be found on the departmental web-site <http://www.phy.ohiou.edu> under "Research." Applicants should have a Ph.D., post-doctoral experience, and a strong record of independent research. The successful candidate is expected to initiate and maintain a vigorous research program and be an effective teacher at both the undergraduate and graduate levels. In addition to the research in nuclear and particle physics carried out within the INPP, the Department also has strong research efforts in astronomy/astrophysics, biophysics, condensed matter physics, and nanoscience. Interested candidates should send a vita, a statement of research plans, and a statement of teaching philosophy to: Prof. K. Hicks, NP Search Committee, Department of Physics and Astronomy, Ohio University, Athens, OH 45701-2979. Applicants should arrange for at least three letters of recommendation to be sent to the above address. Review of applications will begin on December 15, 2007, and will continue until the position is filled. We seek a candidate with a commitment in working effectively with students, faculty and staff from diverse backgrounds. Ethnic minorities and women are especially encouraged to apply. Ohio University is an AA/EO employer.
